Time Based Energy Usage

The Time Based Usage rate is aligned to the time of day you use your electricity. It offers discounted energy prices during off-peak hours and charges higher prices during on-peak hours to reflect the amount BEC pays our wholesale provider.

TBU aligns the price of energy with the cost of energy at the time it is produced. Lower rates during partial-peak and off-peak hours offer an incentive for members to shift energy use away from more expensive peak hours, which can help you save money and reduce strain on the electric grid. For rates, please visit BanderaElectric.com/Selectricity.
